Founder's Story and Credibility

Nicole Apelian's personal journey with Multiple Sclerosis and her subsequent recovery through natural remedies add a compelling narrative to the Medicinal Garden Kit. Her expertise and experience as a biologist and herbalist lend credibility to the selection and efficacy of the plants included in the kit.

Contents of the Medicinal Garden Kit

Each Medicinal Garden Kit includes seeds or seedlings of ten medicinal plants carefully chosen for their therapeutic properties. These plants range from immune-boosting echinacea to soothing chamomile, each serving specific health purposes such as improving sleep, enhancing immunity, and treating digestive issues.

Scientific Basis and Effectiveness

The effectiveness of the plants included in the Medicinal Garden Kit is supported by scientific research. For instance, chicory has been studied for its anti-inflammatory properties, while echinacea is renowned for its immune-stimulating effects. These studies validate the traditional uses of these plants in herbal medicine.
