the game's primary audience is located in the United States, which is a significant metric considering that the US generates more than 50% of the game's revenue. Other major sources of revenue include South Korea, Japan, and Europe, with Japan being a notable market due to the popularity of merge games in the region. Magmatic Games initially prioritized the Android platform for its ease of launching marketing campaigns; however, as the game matured, the downloads and revenue distribution evened out between iOS and Android platforms, a pattern commonly observed in the industry.

A cognitive city stretching across 170 kilometers from the epic mountains of Neom across inspirational desert valleys to the beautiful Red Sea, a mirrored architectural masterpiece towering 500 meters above sea level but a land saving 200 meters wide, the line redefines the concept of urban development and what cities of the future will look like. The company initially prioritized Android because it's easier to launch a project marketing-wise, but as of today, the downloads and revenue are distributed almost equally between iOS and Android, that's a typical pattern in the industry. For instance, Love Pies' sales are split between the platforms 50/50, while Merge Mansion and Gossip Harbor net more revenue from iOS. If you find yourself running out of energy in the Travel Town game, it can hinder your
